History	The learning centre was set up in 2004-5 by the Karen Migrant Primary School Committee (KMPSC), with small amount of support. It is located in Mae Ra Mat Area, which is 35 kilometers north of Mae Sot and 3 kilometers close to the Moei river (border with Burma). The communication is not always easy. Most of the parents are migrant workers working in the field, they have very low income. Without this school, the children of this community have no chance of an education. In 2007, it became BMWEC member.	
Main Problems	• Communication, Funding.	
Planned actions	To find donor, upgrade classes, give lunch	
Current donors		
	We are looking for a donor to sponsor our school. Since June we are running only on emergency funds and we are getting into debt. We received only a little salary and not enough running costs to cover the expenses.	
Budget	Our budget for one year is 367,494 baht. This does not include lunch.
